

Questions for discussion

- At the workshop, mainly the technical aspects of the future Framework were discussed. Would you like to add any benefits and challenges at a policy level?
- What type of strategic planning on forests do you have in your Member State? What added value do you see in Strategic Plans for Forests as planned in the New EU Forest Strategy for 2030?
- What are your expectations from the newly set-up Subworking group on 'Forest Monitoring and Strategic Plans'?
